

An education built around your child.

Forty years of small classes, rich content, and a genuine focus on character — a K–8 school where every child is known.

WHAT A WEEK LOOKS LIKE HERE

✓ A calm, nurturing environment	... children rediscover the joy of learning, free from chronic test-driven stress.
✓ Classes that stay small	... every child is seen, known, and supported — not just one of twenty.
✓ Rich content right from Kindergarten	... novel studies, science experiments, and social studies explored in real depth.
✓ Hands-on, engaging instruction	... simulations, games, and real-world projects, not textbooks and passive listening.
✓ Assessment built for lasting learning	... project-based work with real evaluation, designed to stick — not just to test well.
✓ Character woven into every subject	... resilience, ethics, and emotional intelligence taught alongside academics, every day.
✓ Teachers who truly know your child	... close mentoring in a genuine family atmosphere.

WHAT WE'RE ACTUALLY BUILDING IN YOUR CHILD

Resilience Setbacks become growth, not definitions of worth.	Deep focus The ability to sit with a hard problem — increasingly rare and valuable.	Ethical clarity Not just 'can I?' but 'should I?' — the foundation of trusted leaders.	Emotional intelligence Humility, kindness, listening — the traits that make someone irreplaceable.

IN THE WORDS OF THOSE WHO KNOW US BEST

<i>"My daughter said it herself: 'Mommy, I am a different person because of Progressive.' She is the person she had always wanted to be."</i> — The Schneider family	<i>"My son graduated a well-rounded young man, eager to face the world. Your school is much more than a school — it is truly an extended family."</i> — Katherine Wahl, parent & teacher	<i>"Her new school said they had never seen a child arrive at such a deep assimilation of a variety of topics by third grade."</i> — Kathy Monteiro, parent (upon transfer to Arizona)
